

## Transform your school admissions with HUBapply!

Have a think about your admissions process...

- Is it time-consuming, costly and inefficient?
- Can communication between the school and prospective parents be difficult at times?
- Does your admissions office get bogged down with paperwork, that can be easily mislaid?
- Would you like to manage your admissions process seamlessly online from start to finish?

If you answered “yes” to any of the above, then we can help you!

HUBapply is a comprehensive and powerful solution that provides the ultimate student recruitment and admissions CRM system for your whole team. As a paperless online solution, HUBapply manages the end-to-end admissions journey from enquiry to enrolment. From this point your MIS takes over, and being a standalone product HUBapply can work alongside any system.

## Turn this...

## Here's how HUBapply can enhance your school admissions:

### Simplify your admissions process

Move your paper-based process into an automated online system. Enable parents to register and progress their child's application at times convenient to them, with the ability to manage multiple applications on one account. Using their own dedicated Parent Portal, they can complete and submit forms online, see where they are in the admissions process via the timeline, book attendance at admissions events or meetings, upload documents, communicate via instant messaging and make payments, all on their device of choice.

HUBapply also provides an online portal for feeder schools, as well as agencies who are applying on behalf of a parent.

# Into this...

## Streamline your admissions department

The intuitive Administration Portal will help to reduce workload, removing the need for countless documents, spreadsheets, emails, and back and forth phone calls. Your team can track where each parent is at any stage of the admissions journey on an easy to view timeline. Automatic notifications are sent to parents when you progress their child's application to the next step in the process.

HUBapply gives you the ability to create a variety of admissions routes, no matter how complex, carefully guiding parents all the way from enquiry and registration to their child's enrolment.

With the unique Reviewers Portal there is no need to send email attachments or chase hard copy forms up and down the corridor. The reviewer can add their comments to the application within the same platform.

## Increase your enquiry traffic

HUBapply provides schools with an advanced 'real-time' reporting dashboard and customisable tools, where you can measure conversion rates, to help you make informed decisions and work out projected numbers for the years ahead.

Track how parents heard about your school, identify your successful geographical catchment areas and manage recruitment events online, helping you to improve your targeted marketing activities.
