

WCBS®

In partnership with

esenda

The smart way to collect and
manage school fees

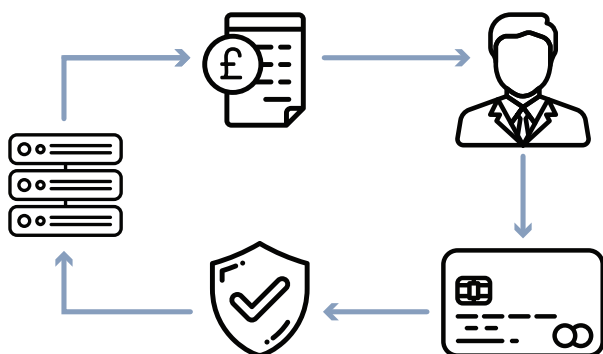

Supporting Schools

WCBS and Esenda are providing forward thinking schools with a smart and efficient payment solution. Built specifically for the independent education sector, we believe it is time schools are given a solution that can meet modern day requirements.

Through our sophisticated integration, many of the manual difficulties and cost implications of current fee collection are eliminated, while mitigating the growing risk of payment fraud.

Our easy to use school solution improves efficiency, security and transparency while offering a variety of safe card and bank transfer options to parents. This new integration simply becomes a part of your school's existing WCBS finance and billing system.

Whether you are a small prep school or large international boarding school, this new feature will provide significant benefits to your school and bill payers alike.

Key Features Include

- Integration with WCBS systems
- Automated processes
- Live payment updates
- Reduction in merchant fees
- Local and international payment methods
- User-friendly payment portal
- Secure and regulated environment

Increase Efficiency

This dynamic partnership increases overall payment efficiency and eradicates the need for extensive manual intervention. Invoices are automatically matched and reconciled for the school, with the full invoiced amount being received each time.

The Esenda system also provides complete payment transparency for both schools and bill payers, reducing the need for schools to manage constant communication regarding payment status and confirmation.

Payment Fraud

Over previous years the independent schools' market has fallen victim to the increased risk of payment fraud, with many being affected. Schools must make sure they are mitigating any possible fraudulent activity to protect themselves and their bill payers.

With Esenda you are able have the necessary security procedures in place, ensuring banking details and payment instructions are always provided to parents in a safe and secure environment.

Merchant Fees

Online payment providers are charging unnecessary fees and premiums, resulting in schools paying extortionate rates for simply providing a card payment facility. With the new Esenda partnership we can give schools access to market leading card merchant rates that are tailored to larger transactions.

Get in touch for a price comparison and to see how much Esenda can save your school on merchant fees.
