

Reduce costs, increase efficiency, and integrate with passFINANCE

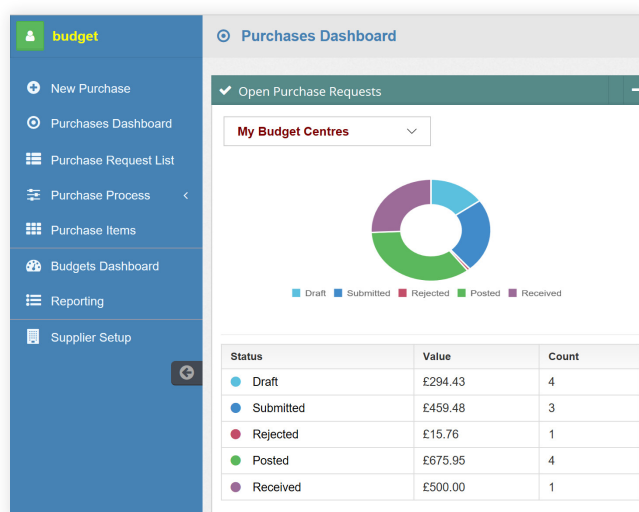

Our purchase requisition system, WCBS PRS has been developed in partnership with our customers specifically to improve efficiency and accountability, support better decision-making and help deliver results with a level of governance that has an accurate view on the financial position of the school.

Senior leaders have access to realtime data, tailored to their areas of responsibility and relevant to their role, from any web-enabled device. Nobody has to wait for monthly reports, which can then in turn quickly become outdated.

The WCBS PRS solution does this by integrating with passFINANCE to open the system for all users, eliminating the need for rekeying information and duplicating effort, centralising purchasing activity and fully automating requests and approvals.

Increase Efficiency

Budget holders can take full responsibility and ownership of departmental spend to maximise impact without the worry or need to chase a paper trail or even emails.

The workflow is straightforward and easy to set up and simple dashboards show committed and actual spend, against budget.

Requisitions maintain a full paperless electronic audit trail, covering the lifespan of the purchase requisition.

The originator is able to print all purchase orders for requisitions that have been approved.

KEY FEATURES

- Real-time budget statement reports
- Easy-to-use dashboards for senior school leaders and budget holders
- Safe and secure on-demand visibility of key information for SMT and governors
- Seamless browser-based, anytime, anywhere access for all users
- Paperless electronic audit trail
- Comprehensive out-of-the-box functionality

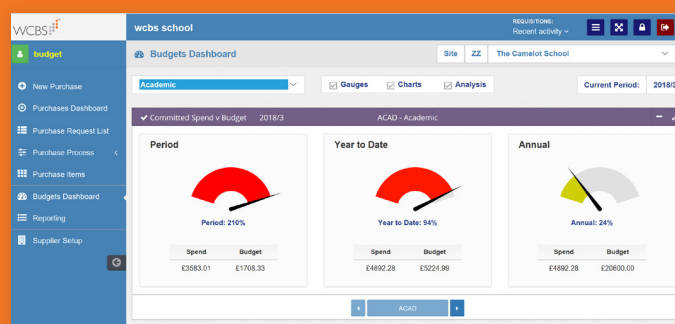

Who will benefit from PRS?

The Finance department will enjoy the familiarity of using a system that works alongside passFINANCE.

Budget holders can make informed decisions based on easy to access information from their budgets at their fingertips.

New users will benefit from the intuitive simplicity of dashboards and workflows, reducing knowledge gaps and learning time.

The Governors and Senior Management Team are always informed with an up-to-the-minute view on the financial position of the school.

Reduce Timeframes

Requests and approvals are fully automated through a series of intuitive screens and alerts. Easy tracking means users can see where the PR is at any point in its lifecycle.

Save and Control Costs

Gain clear visibility of your school's outgoings and understand where costs can be kept down in order to keep within budgets, to manage an efficient, effective and successful school.
